# Technology of Engineering Materials

By William Bolton, Mathew Philip, W Bolton

ELSEVIER SCIENCE TECHNOLOGY, United Kingdom, 2002. Paperback. Book Condition: New. 258 x 192 mm. Language: English . Brand New Book. A core text for first year modules in Engineering Materials and Technology, offering student-centred learning based in real-life engineering practice. A comprehensive materials technology text for first year engineering students, Technology of Engineering Materials provides all the essential information required for application in real-life engineering practice. In line with the philosophy of the IIE Core Textbook Series, a uniquely student-centred approach to the subject is given. The principles and practical considerations that underlie the informed selection of materials in mechanical and production engineering are introduced in an easily accessible format, through case studies, assignments and knowledge-check questions, all designed to aid student learning. Practical application of the subject within an engineering context is stressed throughout. This book is tailored to be used on a wide range of introductory courses at first degree and HND level. As with all texts in the IIE Core Textbook Series, an interactive style brings the subject to life with activities and case studies rather than pages of theory alone. Key numerical and statistical techniques are introduced through Maths in Action panels located within the main...
