HYPNOTIC TECHNIQUES: FOR STANDARD PSYCHOTHERAPY AND FORMAL HYPNOSIS

WW Norton & Co. Hardback. Book Condition: new. BRAND NEW, Hypnotic Techniques: For Standard Psychotherapy and Formal Hypnosis, George Gafner, Sonja Benson, Written with a minimum of jargon, this book will be of use to clinicians who practice standard psychotherapy and those who have more thoroughly integrated hypnosis into their practice. Hypnotic Techniques, the companion volume to the acclaimed Handbook of Hypnotic Inductions, introduces the wealth of hypnotic applications for dissolving resistance and moving ahead in therapy. Broad in scope and flexible with respect to theoretical bases, this new work by Gafner and Benson assists clinicians in bringing the power of hypnotic techniques to bear in an extensive variety of therapeutic contexts. How do therapists establish a directive in traditional psychotherapy? In the first section of Hypnotic Techniques, the authors explain how to set up a task for a client by the skillful use of hypnotic language, supported by 'seeding' the intended target ahead of time and buttressing it afterward with metaphor, story, or anecdote. Story construction, embedded suggestion, metaphor development, mindfulness-based group anger treatment, ego-strengthening, and combining direct and indirect techniques are among the many topics addressed that borrow from hypnosis and are widely applicable in standard psychotherapy. Therapists are encouraged to 'think hypnotically'-to look for junctures in therapeutic sessions where hypnotic techniques are applicable, to select the most appropriate technique, and to discern and understand the client's response to the applied technique. The aim is not to make clinicians into hypnotic therapists but to show all clinicians the efficacy of specific hypnotic techniques in the context of their current practice. In the second half of Hypnotic Techniques, the authors address formal hypnosis in depth. Beginning with an examination of the limitations of evidence-based treatments for clinical problems such as anxiety and mood disorders, relational problems, and anger, as...
