EASY BIRDHOUSES FEEDERS SIMPLE PROJECTS TO ATTRACT RETAIN THE BIRDS YOU WANT BIRDWATCHERS DIGEST

Cool Springs Press. Paperback. Book Condition: New. Paperback. 160 pages. Dimensions: 8.0in. x 5.0in. x 0.7in. Building birdhouses is yet another way to enjoy the birds in our backyard, and author Michael Berger explains in his book *Easy Birdhouses and Feeders* that you don't need a lot of tools or advanced equipment to create useful shelters for our avian friends. Here you'll learn how to make and install a simple nesting birdhouse out of a flowerpot. Flower Pot Nesting House Notice the groove in the bottom of the wood semicircular front that allows water to drain from the house. Larger Flowerpot Nesting House Birds are ingenious little creatures, and many are not picky about what they build a house in. I've seen wrens build houses in discarded watering cans, robins on top of old wheelbarrows, and sparrows just about anywhere you'd rather they didn't. This house takes advantage of that tendency and can be used by a variety of small songbird species. Consisting of nothing more than a clay flowerpot and a semicircle of wood, the flowerpot house is extremely easy to build and provides a nice bit of shelter when tucked into a tree's forking branches or mounted in any sheltered location. Note: If you live in a region or neighborhood where predation is a concern, incorporate a suitable predator guard into your plans. Birdhouse Placement When mounting the birdhouse, you can use a wood screw and a large fender washer driven through the drainage hole at the base of the pot (which now serves as the back of the house). Tools, Hardware, and Supplies You'll Need Jigsaw Round file 6-dia. clay flower pot 6-dia. wood circle (from scrap), cut in half Construction adhesive or silicone caulk 1 or larger fender washer and 3 exterior screw Building the Birdhouse 1....
