C. 20013) : The Office, 2000 OCLC Number: (OCoLC)45743377 Subject: Air traffic control -- United States -- Data processing -- Evaluation. Excerpt: . . . B-285620 To address these objectives, we summarized key findings and recommendations from our reports on FAAs computer security program in 16 general and its personnel security program in particular. We also obtained updated information from key FAA officials - including officials from the Offices of Civil Aviation Security Operations and Information Services - on the status of the agencys efforts to assess and accredit ATC facilities and systems. In addition, we analyzed updated policies on physical security of facilities and information systems security. Regarding FAAs progress in implementing a CIO management structure, we met with the CIO to discuss his roles and responsibilities and to determine his plans for addressing computer security vulnerabilities. We also reviewed FAAs draft information systems security architecture. To gain insight into whether FAA conducted appropriate background searches on federal employees, we reviewed the position risk descriptions and background search documentation for 30 individuals. We were unable to select a statistically valid sample because FAA is currently reviewing many of its personnel files and they were not available to us for our review. Instead, we selected a proportionate number of individuals from each of the types of background checks that FAA performs and then sought files on individuals within these categories. If an individuals file was not available, we sought a replacement. Because our review of these files was based on a nonstatistical selection, the results are not projectable to the population of FAAs personnel files. In addition, we obtained oral comments on a draft of...
